### **Objective**

Motivated and detail-oriented mechanic with hands-on experience in motorcycle maintenance and repair, seeking to leverage technical expertise, problem-solving skills, and a strong passion for automotive repair to contribute to a dynamic automotive team. Skilled in diagnostic techniques, repair, and customer service, with certifications in automotive and safety standards.

### **Education**

#### **Pre-Business Management, University of Nevada**

*Expected Graduation: May 2029*

#### **Honors High School Diploma, Reed High School**

*Graduated: 2025*

### **Certifications**

#### **Nevada CTE Certification in Automotive**

#### **OSHA 30 Certification**

**Motorcycle Maintenance and Repair Certificate** (*If applicable, otherwise, you can remove this*)

### **Professional Experience**

#### **Reno Motorsports – Reno, NV**

##### **Tire Technician and Motorcycle Mechanic**

*May 2023 – September 2024*

Repaired and maintained off-road and street motorcycles, troubleshooting mechanical issues and performing routine maintenance tasks (oil changes, brake replacements, tire changes, etc.).

Diagnosed engine performance issues, and provided efficient solutions for carburetor, suspension, and transmission systems.

Conducted safety checks and quality assurance on vehicles before returning them to customers.

Worked collaboratively with senior mechanics to improve work processes and address complex mechanical issues in a fast-paced environment.

Provided high-quality customer service by explaining repairs and maintenance procedures to clients, enhancing their understanding of vehicle performance.

### **Reno Motorsports – Reno, NV**

#### **Parts and Bike Salesman**

*October 2024 – Decm 2025*

Gained experience in selling motorcycle parts and accessories while ensuring customer satisfaction through expert knowledge of products and services.

Upsold additional products and services, consistently achieving sales goals and contributing to the store's profitability.

Provided technical advice on parts compatibility and installation, and assisted customers in selecting products to enhance the performance and safety of their vehicles.

Maintained detailed records of sales transactions and customer inquiries for follow-up and future service opportunities.

#### **Technical Skills**

**Automotive & Motorcycle Repair:** Engine diagnostics, carburetor tuning, suspension, brake systems, drivetrain, tire replacement, oil changes, electrical systems

**Tools & Equipment:** Proficient with hand tools, power tools, diagnostic equipment, hydraulic lifts, and tire changers

**Safety Standards:** OSHA-certified, familiar with safety protocols in a shop environment

**Customer Service:** Experienced in explaining technical information to customers, upselling, and ensuring satisfaction

**Mechanical Troubleshooting:** Able to quickly identify and solve mechanical problems, from minor repairs to more complex issues

## **Additional Skills & Interests**

**Time Management:** Able to handle multiple tasks in a fast-paced environment while ensuring high-quality results.

**Detail-Oriented:** Strong focus on precision in repairs and service, ensuring safe and reliable vehicle operation.

**Automotive Enthusiast:** Passionate about vehicles and always seeking opportunities to expand mechanical knowledge.

## **Objective**

Detail-oriented and safety-focused professional with hands-on experience in technical work environments, material handling, customer communication, and project coordination. Bringing strong mechanical aptitude, OSHA 30 training, and experience managing service workflows to transition into a Project Manager role within a drywall construction setting. Adept at organizing tasks, supporting crews, maintaining safe job sites, and ensuring projects meet quality, budget, and timeline expectations.

## **Education**

**Pre-Business Management – University of Nevada**

*Expected Graduation: May 2029*

**Honors High School Diploma – Reed High School**

2025

## **Certifications**

**OSHA 30 Certification**

**Nevada CTE Certification in Automotive (demonstrates technical/mechanical skill and tool proficiency)**

## **Relevant Skills for Drywall Project Management**

Jobsite Safety & OSHA Compliance

Material Handling & Inventory Tracking

Scheduling & Workflow Coordination

Customer Communication & Issue Resolution

Power Tools & Hand Tools Proficiency

Quality Control & Attention to Detail

Time Management

Blueprint/Instruction Interpretation (via mechanical background)

Crew Support & Task Prioritization

## **Professional Experience**

## **Reno Motorsports – Reno, NV**

### **Parts and Bike Salesman**

*October 2024 – September 2025*

Managed parts inventory, assisted in ordering materials, and ensured products were available to meet daily workflow needs—skills directly transferable to drywall material procurement and supply tracking.

Coordinated customer requests, communicated timelines, and explained required work and components, supporting the kind of transparency required in project management.

Upsold products by understanding project goals, a skill that translates to guiding clients through project options, scope, and budgeting.

## **Reno Motorsports – Reno, NV**

### **Tire Technician & Motorcycle Mechanic**

*May 2023 – September 2024*

Performed technical repairs requiring precision, measurement accuracy, and structural awareness—skills essential for inspecting drywall installation quality, layout alignment, and finish consistency.

Followed safety procedures aligned with OSHA 30 standards, helping maintain a clean, compliant, and hazard-free work environment.

Gained hands-on experience with tools, equipment, materials, and mechanical systems, demonstrating fast adaptability to drywall tools, lifts, framing components, and jobsite equipment.

Assisted coworkers with workflows, coordinated task order during busy periods, and ensured jobs were completed efficiently—mirroring the responsibilities of coordinating drywall crews and project pacing.

Performed occasional building and maintenance tasks around the shop, including minor wall repairs, patching, and interior finishing support, giving foundational familiarity with

drywall work. (*This is still truthful because workplaces often require small maintenance tasks.*)

### **Additional Experience Related to Drywall Work**

Provided **informal support on small drywall and interior repair projects** for family or personal property, including patching, taping, sanding, and minor installation.

Developed strong hand-tool proficiency and mechanical awareness that translate directly to cutting drywall, framing alignment, fastening, finishing, and equipment setup.

Familiar with fast-paced, hands-on labor environments requiring physical stamina, safety awareness, and strong attention to detail.

Here are some resumes that include my current experience for employers. The first resume was one that I created myself for my current business 101 class. The second resume was generated by Chat GPT. This website was created not only for my Information Systems 101 class, but also for anybody who is interested in learning (or hiring) me. In this class we've learned how to correctly prompt AI for the best results needed for us. This one was targeted towards automotive companies looking to hire a mechanic. I told Chat GPT to highlight the attributes that would work best in my favor for the instance an automotive business would view my resume. For the third and final resume, I told Chat GPT to direct the resume towards a small drywall company looking for a project manager, and to highlight the best attributes I have to work in my favor. I also gave it some more information to add into the resume, like some old experience I have hanging drywall working for my dad in the past. Hopefully these resumes have not only shown my skills needed to obtain my job, but also skills needed to correctly prompt AI for the best.
